

Saturday April 3, 2010

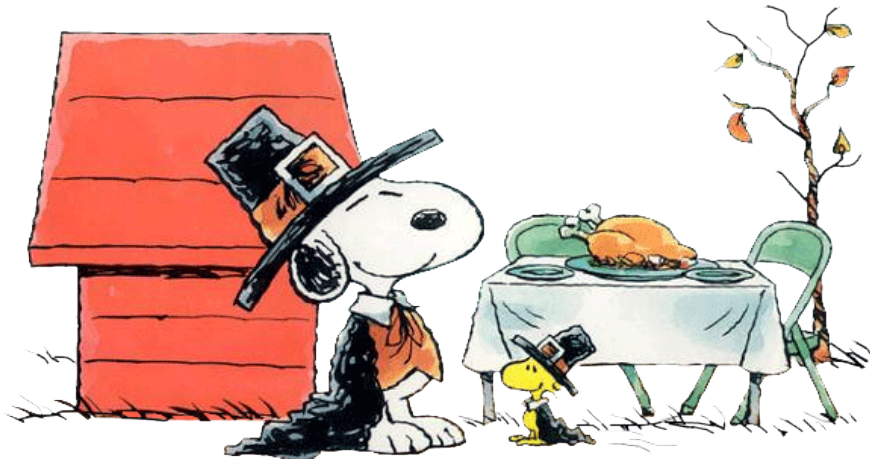

We set out early to take a ride on the BC Ferry. Good thing we had not planned to go yesterday as a huge wind storm had damaged a door on one of the ferries and caused many delays.

Today there was no delay and we had a pleasant sail from Horseshoe Bay to Langdale.

From there we drove the truck to Sechelt to Roy and Gaylene's beautiful log house, nestled between the bay and a provincial park. Unfortunately we do not have any pictures as Maureen left the camera in Gaylene's truck.

The girls and Percy took a pleasant hike into the forest and out onto the beach.

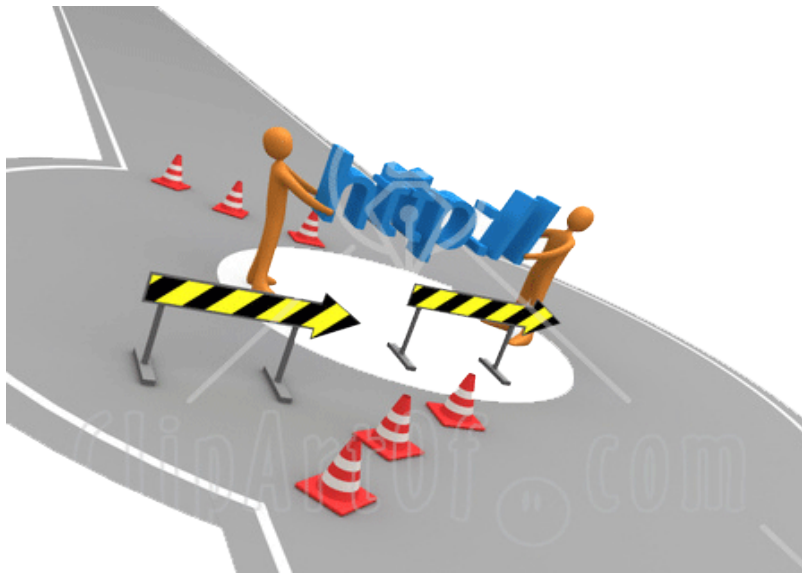

Gaylene cooked a fabulous Easter meal; turkey and all the trimmings.

Sunday April 4, 2010

Roy took us for a tour of the area. Saw Molly's place and the Persephone in Gibson's Harbour (site of the Beachcombers TV show).

By 6:30 we were back on the ferry and headed to our camper in Surrey.

Monday April 5, 2010

Mike picked up the prescriptions at Shoppers while Maureen packed up to leave Surrey. The packing was all done but Mike was not back yet. A phone call confirmed what Maureen already

suspected. The road construction crews had changed the exits again and Mike once again took the scenic route to Coquitlam.

*We left shortly after noon and had a pleasant drive east on number 1 to Bridal Falls where we stopped at the Camperland RV Resort.*

*In no time flat we were all checked in and made our way to the assigned site. What a pleasant change from the last place. This spot is nestled at the base of the beautiful Cheam mountains. Each site is separated with fragrant cedar hedges and the grounds are all extremely well maintained.*

Tuesday April 6, 2010

*Tried to take a hike to Bridal Falls but the skies opened up and we got caught in a downpour, so will try again another day.*

*Drove into Chilliwack and bought some groceries. The Super Store was huge. We sure do miss the US prices though. Dairy and Diesel are much, much higher!*

Wednesday April 7, 2010

*Cold and wet today. Spent the day working on taxes.*

Thursday April 8, 2010

*Another quiet day in our beautiful campsite. Our neighbour next door moved out and now we can see even more of the mountains.*

*Maureen did some laundry. Very nice Laundromat, but the small dryers do not work as well as expected. Large dryers much superior. Weather is still freezing at night and there is lots of snow on the mountain tops, so we have decided to stay put until things warm up.*

*This campground is situated beside a water park. Probably quite noisy in the summer.*

*We have 50 amp service here, so the oven works really well.*

*Mike made cookies. YUM!*

*Friday April 9, 2010*

*Taxes finished today and thanks to income splitting, we are both getting refunds. YEAH!*

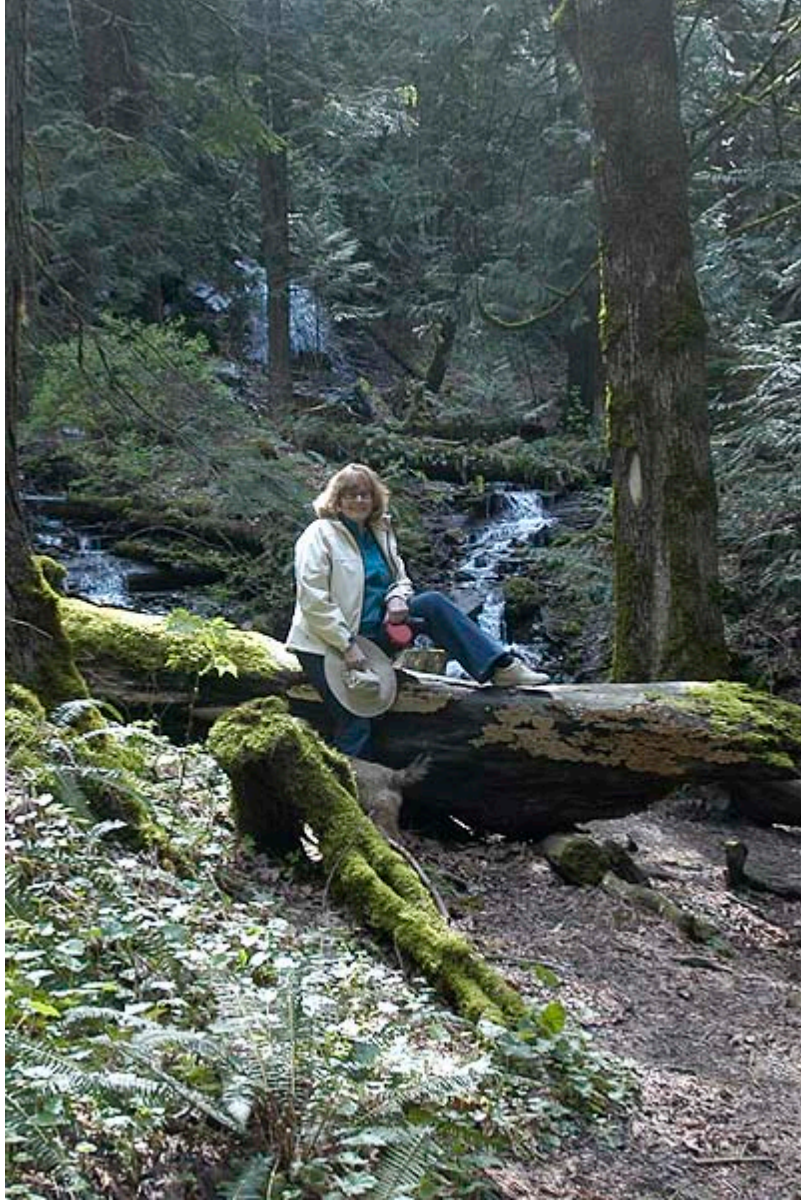

*Forecast was for snow but we only saw a few flakes. More in the mountains.*

*Maureen worked on scrapbooking in the afternoon.*

Saturday April 10, 2010

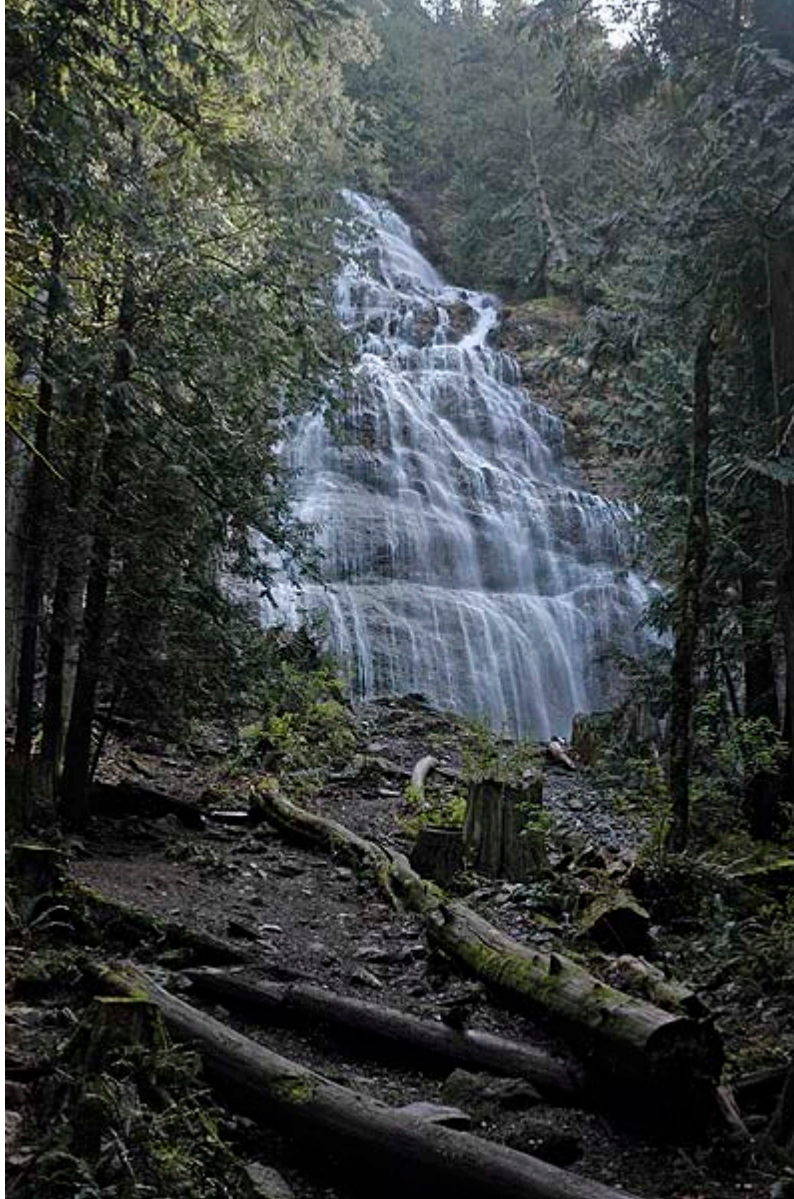

*The sun is shining brightly today and it has warmed up a bit. Took a hike to see Bridal Falls. It is a fairly steep 15 minute climb up - but worth the effort.*

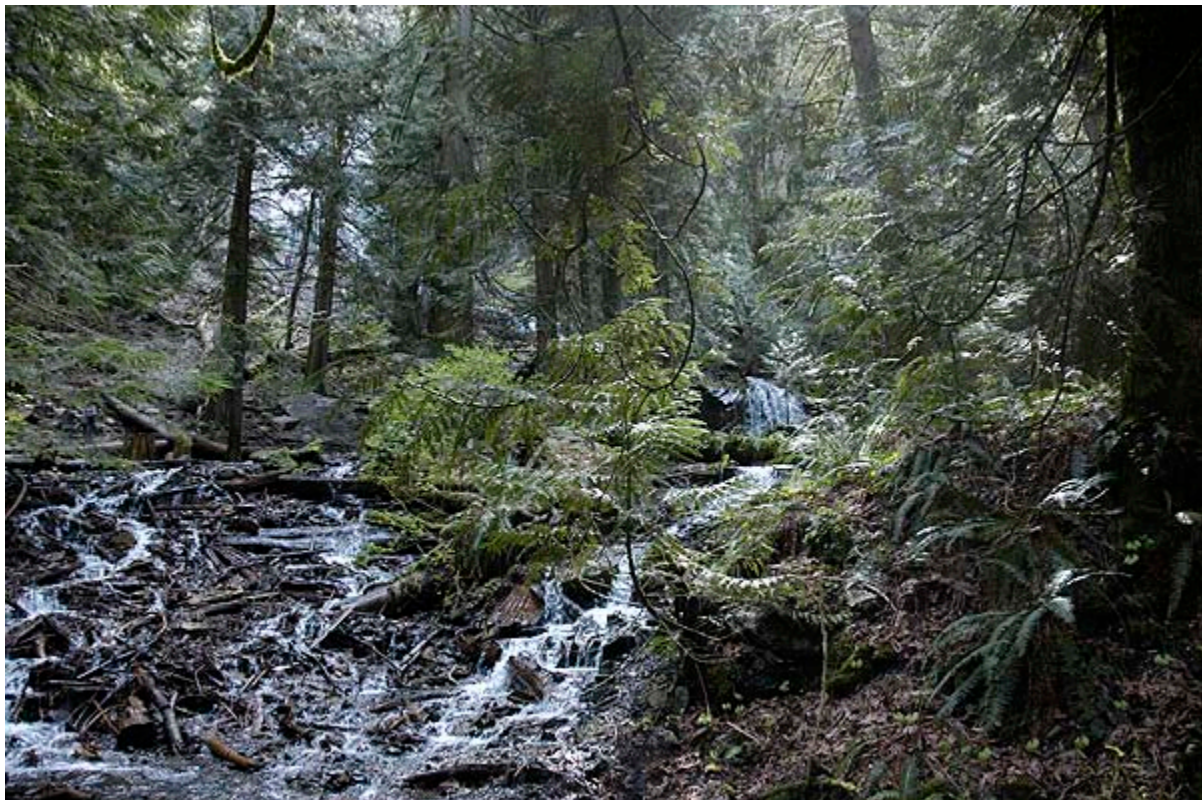

*Percy is more interested in sniffing than checking out the water.*

*Going down is much easier*

*Many of the stumps are filled with new life*

*The water is very pretty but too cold for Percy's feet.*
